

SkillsUSA Maryland State Competition – Internetworking

Contest Update #2

- Please make sure you bring a laptop to the competition.
- Please download and install Packet Tracer version 8.2.2 on your laptop.
- Please make sure you can login into Packet Tracer with your NetAcad login and password.
- Please record your NetAcad login and password on a piece of paper in case you get nervous and forget it. You will not be allowed to access your cell phones during the competition.
- No hand tools are required during the competition. Everything will be completed in Packet Tracer except the test which is paper and pencil and the Technical Assistance Center Simulation which is verbal. Pencils will be supplied.

Hints:

- You will not be able to use Google during the contest. Learn how to enter help at the system prompt at each mode on the switches and routers. (user exec, privilege, global config, and interface)
- You may bring a calculator or use the calculator on your laptop if you need one for subnetting. You may not use your cell phone.
- Please review update #1 so that you know what to practice for the contest.
- Stay calm and enjoy the competition experience.
